LACES STOREFRONT REDESIGN

Progress update for the LACES team · November 2026

In one line: we rebuilt the LACES shopping experience around the thing that makes LACES different — every purchase funds athletes — while keeping the logo, colours, photography and every existing store feature exactly as they are.

1. WHAT WE DID BEFORE DESIGNING

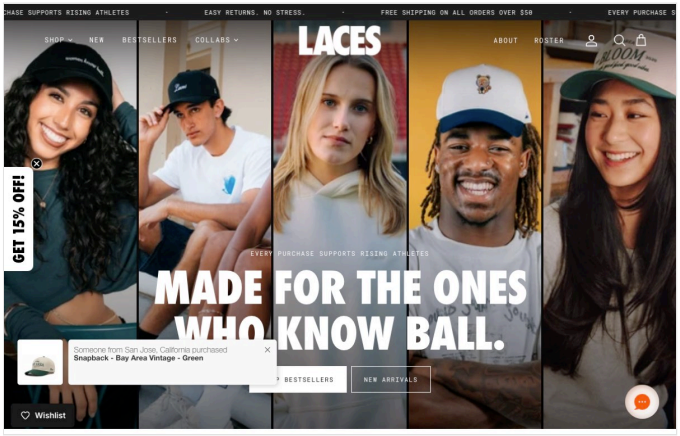

STEP	WHAT IT INVOLVED	WHAT WE LEARNED
Audit of getlaces.co	Walked every page: home, menus, collections, product pages, cart, search, and the mobile site	The homepage was five similar product carousels; the Athlete Fund story only appeared near the very bottom; product names like "Snapback - Bay Area Downside Up - Blue/Gold" were hard to scan
Brand deep-dive	Read the Athlete Fund, NIL, Cal Athletes, Collaborations, Hat Fit Guide and Women Know Ball pages	Gave us verified facts to build on: 5% of every sale → Athlete Fund, split equally among athletes each month, free shipping over $50, 30-day returns
Reference research	Studied New Era, Kith, Goorin Bros, '47 and Aimé Leon Dore	Borrowed patterns (campaign heroes, bold collection headers, collabs told as stories, fit-focused filters) — not looks
Photo library review	Catalogued the 40+ lifestyle and product photos already in the store	Every image in the new design is a real LACES photo; no stock imagery

Direction chosen: "Athlete-First Editorial." Clean, product-forward pages in the existing LACES black/white/grey, bold condensed headlines, real athlete photography, and the Athlete Fund woven through the whole journey — hero, homepage, product page, cart, footer.

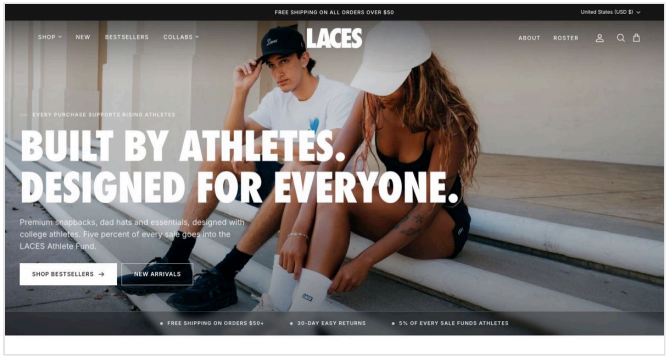

2. WHAT CHANGED, PAGE BY PAGE

Homepage — fully redesigned

BEFORE

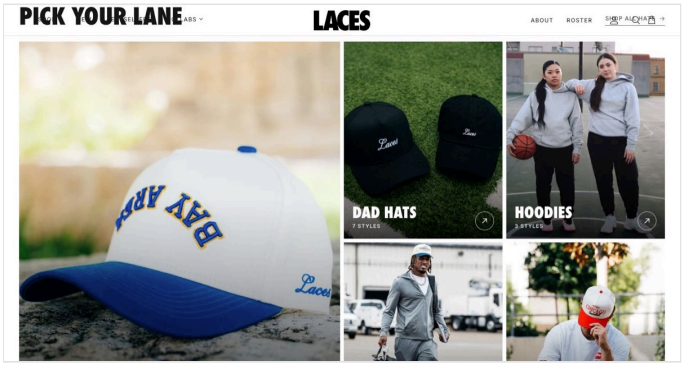

AFTER

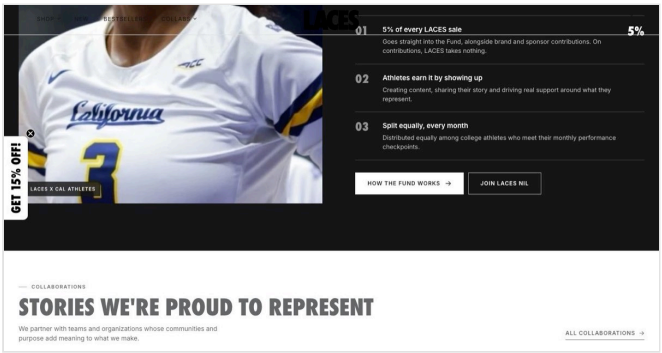

New flow, top to bottom:

1. **Hero** — one strong campaign photo, "Built by athletes. Designed for everyone.", and a proof strip: free shipping $50+ · 30-day returns · 5% of every sale funds athletes
2. **Shop by category** — Snapbacks, Dad Hats, Hoodies, Rep Your Team, Rep Your City, each showing how many styles are available
3. **The rotation** — Bestsellers / New arrivals / Signature in one block with tabs
4. **The Athlete Fund** — a dedicated story block explaining, in LACES' own words, how the Fund works
5. **Collaborations as stories** — Cal Athletes, Women Know Ball, Voices, Bloom, Bay Area Host Committee
6. **Snapback or Dad Hat?** — side-by-side fit guide
7. **Rep where you're from** — Team / City / Bay Area / Vintage tabs
8. **Women Know Ball** campaign banner with a shoppable product card
9. **Community** — real athlete photos, the Roster, @laces.athletes
0. Customer reviews and press logos (existing content, refreshed)

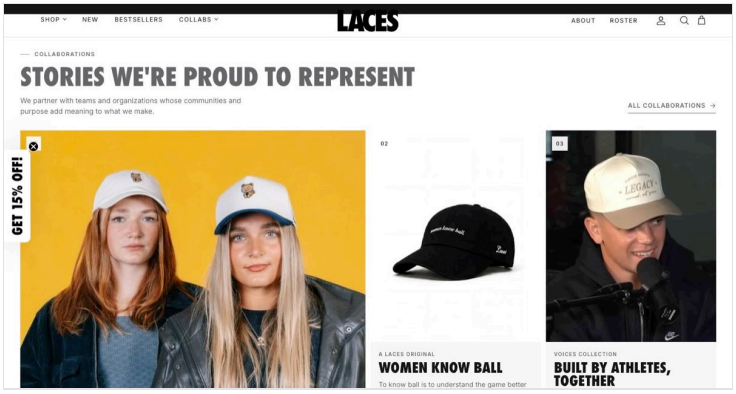

CATEGORY TILES

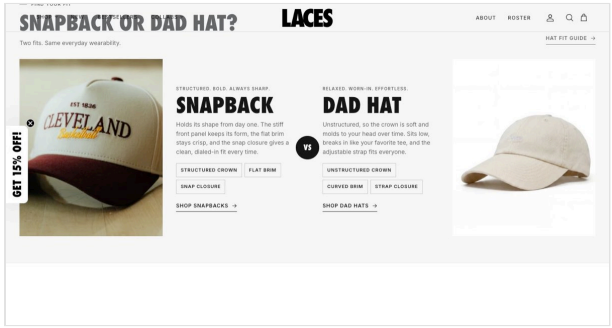

ATHLETE FUND STORY

COLLABORATIONS

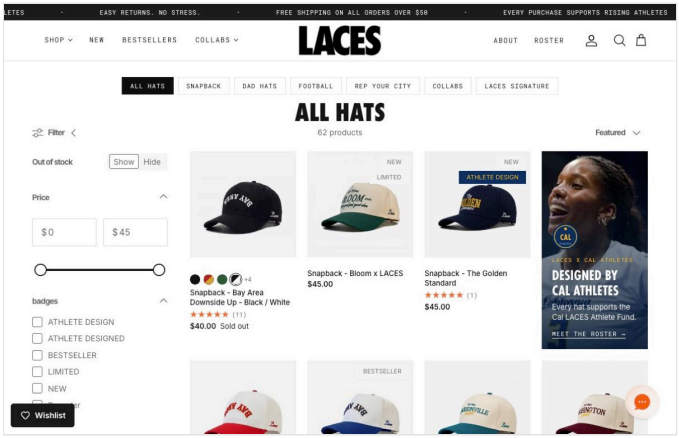

FIT GUIDE

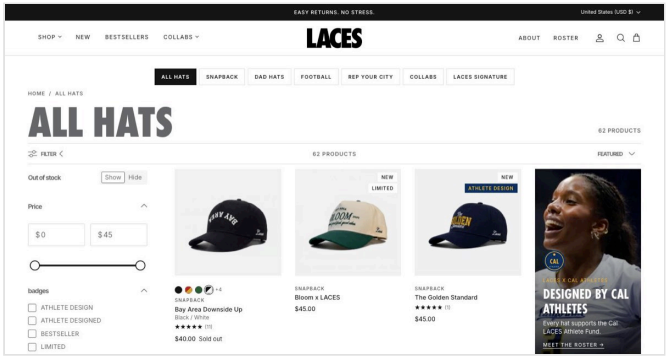

Collection pages

BEFORE

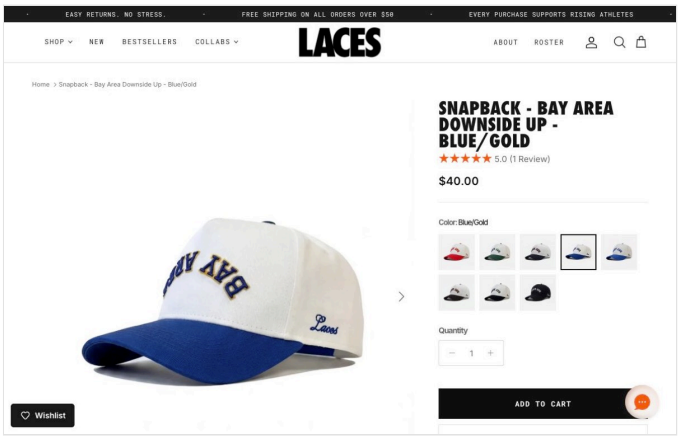

AFTER

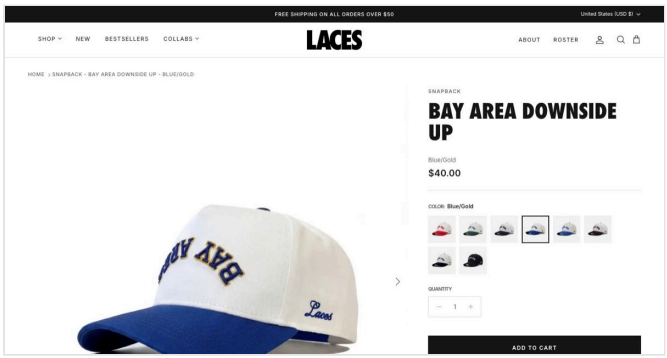

- Bold page header with breadcrumb, live product count and description
- Cleaner filters and sort bar
- Clearer product cards: fit, name and colour on separate lines, consistent labels, colour swatches, quick-buy on hover

Product pages

BEFORE

AFTER

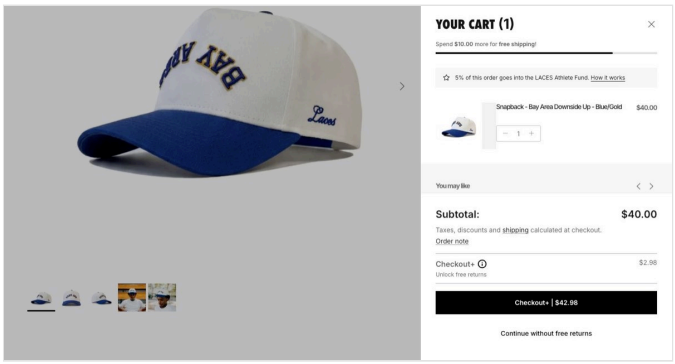

- Title split into fit / name / colourway so it reads at a glance
- Tidier buy area (colour tiles, quantity, Add to Cart, stock status, trust row)
- A short "5% of every LACES sale goes into the Athlete Fund" note beside Add to Cart

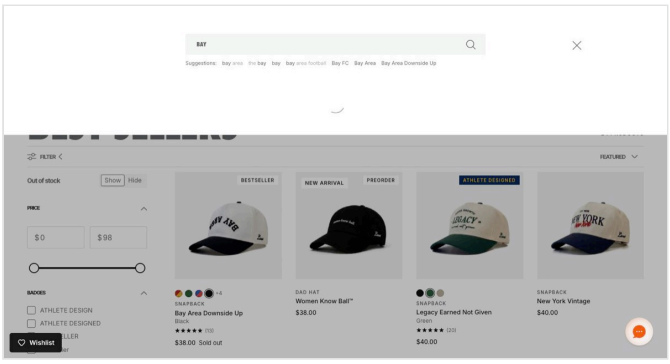

- Sticky Add to Cart, wishlist, reviews and payment buttons all kept

Cart, search, navigation

CART DRAWER

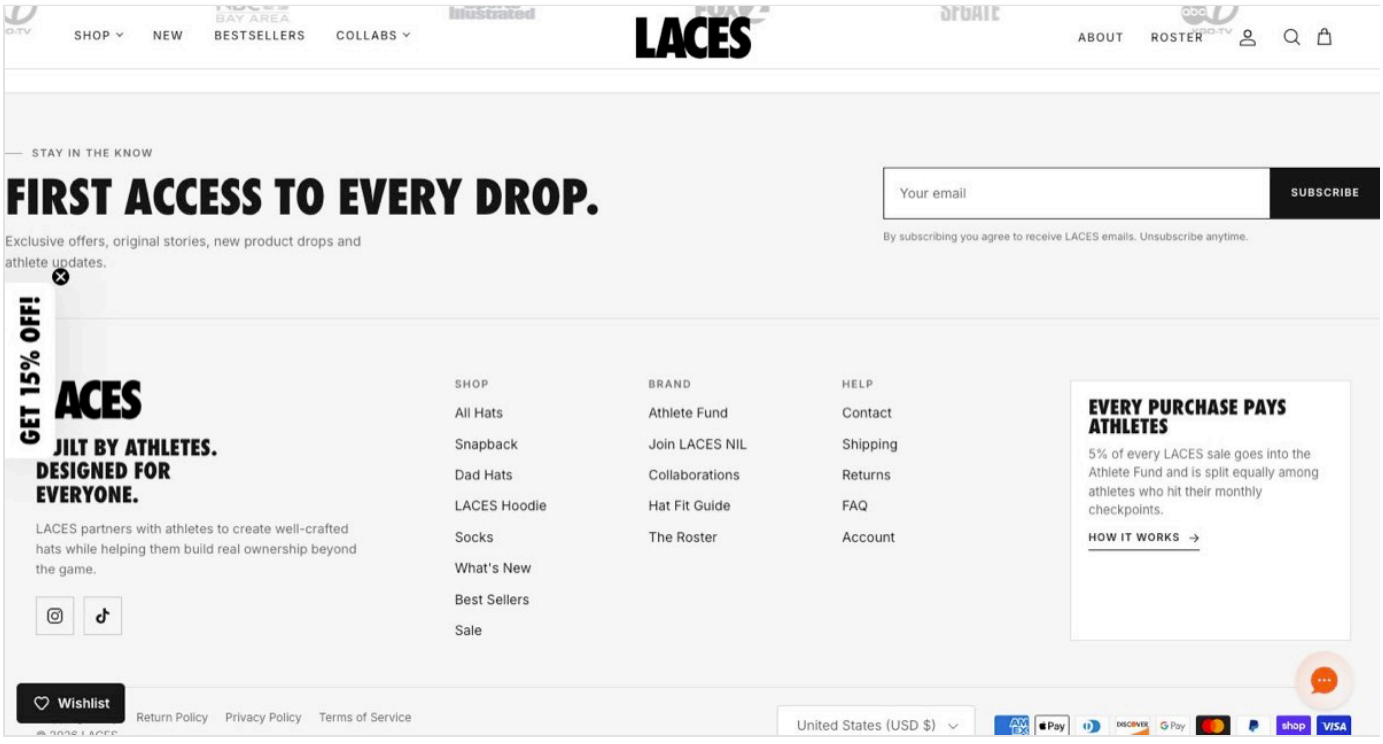

SEARCH

- Cart drawer refreshed, with the Athlete Fund note under the free-shipping bar; Loop "Checkout+" and cross-sells untouched
- Search overlay restyled with the same product cards
- Header and mega menu cleaned up; mobile menu now also carries the Athlete Fund message and quick links

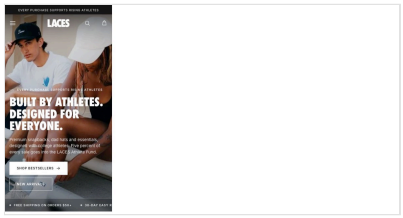

Footer — rebuilt

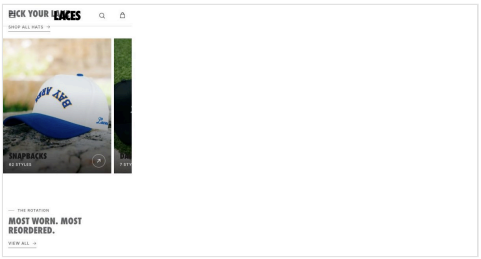

Newsletter band, brand statement, full Shop / Brand / Help links (Athlete Fund, NIL, Collaborations, Fit Guide, Roster, Contact, policies), Athlete Fund card, payment icons and region selector.

Mobile

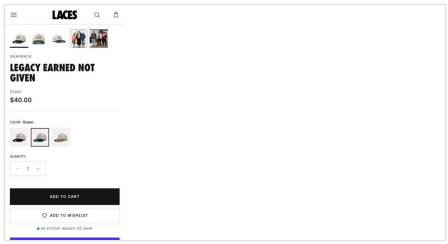

HERO

CATEGORIES

PRODUCT PAGE

Designed mobile-first: swipeable category and product rails, a portrait hero crop, readable type and thumb-friendly buttons. Tested at 390px, 820px and desktop.

---

3. WHAT STAYED THE SAME

- LACES logo, brand colours and typography family
- All products, collections, prices, menus and pages — no store data was changed
- Every app and integration: reviews, wishlist, Klaviyo, Loop returns/Checkout+, chat
- The Cal Athletes campaign pages and existing product-page features (fit toggle, specs, photo strip)
- Checkout, cart logic, filtering and sorting

---

4. WHERE THINGS STAND

- The redesign is complete and running on a **private preview theme** — nothing is live until you approve it.
- Everything is editable in the Shopify theme editor (images, copy, which collections appear in each tab).
- All copy about the Athlete Fund, shipping and returns uses figures already published on getlaces.co.

Next step: review the preview together, collect feedback, then publish.
